Correspondence

New Federal Regulations for PFAS in drinking water. The United States Environmental Protection Agency (USEPA) has established federal drinking water regulations for six poly- and perfluoroalkyl substances (PFAS). Short term this will not affect CHWP. In the long term, there is the possibility of rate increases as the cost of treating the water to these new standards maybe passed on from Manchester Water Works. The new regulations do not take full effect for another 5 years.

Correspondence, continued

Hooksett Village Water Works has been working with the town on updating the water service areas map and precinct boundaries. They have requested mapping indicating the new boundaries is accurate. The Superintendent has reviewed tax maps and lots, and has verified that the boundaries on the map are correct. The superintendent will respond via email to Hooksett Village Water Works.
